

2Q Group Loss Prevention Plan for 2010

Risk Recognition = Loss Prevention

Your 2010 Group Loss Prevention Plan will include your groups risk assessment and what action **the group** will commit to mitigate your risks, keeping everyone safe and preventing loss. It does not have to conform to any specific format and there is no set number of risks or actions.

The only criteria for a Group Loss Prevention Plan are: identifying the group risk, taking action to address the risk and having people recognize the loss prevention efforts in action.

Your Group Loss Prevention Plan should be focused on your group, your group's behaviors and accountability. In 2Q2010 the update and focus can be on losses related to teamwork.
